Touch 01

New standards of brewing

4 in 1 - The multifunctional brewing solution allows the barista to serve a variety of beverages within one device, delivering coffee and tea, hot and iced at the touch of a button. The function to provide cold water dilutions for iced beverage preparation makes it unique in the market.

Precision and quality with every batch -

All parameters are easily adjustable which allows complete control over water quantity, time and temperature. Highest temperature stability plus the specifically developed spray-head enables a uniform and gentle extraction to get the best out of every coffee and tea.

Touch series - The Touch 01's intuitive interface facilitates programming and the barista's daily operations. For recipe creation, the Tone recipe control system opens up scope for the barista to adjust the key brewing parameters and to find the optimal extraction.

Product characteristics

- hot and iced preparation of coffee & tea
- bulk brewer 2-4L (flow rate 20g/sec.)
- intuitive TOUCHscreen for an enhanced programming and operation of the brewer
- TONE recipe control system provides control over water quantity, time and temperature
- recipes for coffee & tea are programmable
- cold water bypass for iced beverage preparation
- additional hot water faucet (can be used during bulk brew is in process)
- plug & play solution
- quick and energy-efficient one phase heating
- USB port for software updates and recipe transfer
- servers not included

Technical Data

Type	TOUCH 01
Dimensions in mm (w x h x d)	245 x 597 x 520
Weight	18,5 kg
Power	220 - 240V 50/60Hz
Boilervolume	6 liter
Minimal Waterpressure	0,138 MPa
Maximal Waterpressure	0,620 MPa
Heating	2800W

*visuals contain not included accessoires
